Section 2

Maximum Allowable Rents of Multifamily ADUs

2001 MSA Median Income is \$91,500

- (A) For the two-thirds of the ADUs with rents based on 65% of MSA median: (65% = \$59,475):

Unit Size	Rent (Excluding Utilities)
Efficiency	\$867
1 Bedroom	\$991
2 Bedroom	\$1,115
3 Bedroom	\$1,239

(B) For the one third of the ADUs with rents based on 50% of MSA median (50% = \$45,750):

Unit Size	Rent (Excluding Utilities)
Efficiency	\$667
1 Bedroom	\$763
2 Bedroom	\$858
3 Bedroom	\$953

2.2 Rents for multiple family units are exclusive of tenant-paid utility costs which may include any combination of the following: water, sewer, heat, light and/or general electric usage.

FORMULAS FOR RENTS FOR MULTIFAMILY UNITS

Chapter 112 (Zoning Ordinance), Article 2, Part 8,
Section 2-811, Paragraph 6

6. For multiple family dwelling units, County-wide rental prices shall be established by the County Executive in accordance with the following:

- A. Two-thirds (2/3) of the affordable units in non-elevator multiple family dwelling unit structure developments shall be established according to the following formula which shall be based on sixty-five (65) percent of the median income for the Washington Standard Metropolitan Statistical Area. This base figure shall be adjusted by the following factors for different multiple family dwelling unit sizes based on the number of bedrooms in the dwelling unit:

Number of Bedrooms	Adjustment Factor
Efficiency (0 bedroom)	70%
1 Bedroom	80%
2 Bedroom	90%
3 Bedroom	100%

The result of this calculation for each size multiple family dwelling unit shall then be divided by twelve (12), then multiplied by twenty-five (25) percent and rounded to the nearest whole number to establish the rent for the unit, excluding utilities.

- B. One-third of the affordable units in non-elevator multiple family dwelling unit structure developments shall be established according to the following formula which shall be based on fifty (50) percent of the median income for the Washington Standard Metropolitan Statistical Area. This base figure shall be adjusted by the same factors set forth in Par. A above and the results of this calculation for each size dwelling unit shall then be divided by twelve (12), then multiplied by twenty-five (25) percent and rounded to the nearest whole number to establish the rent for the unit, excluding utilities.
